

**SIGN &
PAPI
TESTER**

ARE YOUR SIGNS & PAPI'S COMPLIANT?

USING A MALMS SIGN & PAPI TESTER
IS THE ONLY WAY TO DEMONSTRATE
COMPLIANCE FOR SETTING ANGLE &
TRANSITION, LUMINANCE / INTENSITY
AND COLOUR FOR SAFETY CRITICAL
SYSTEMS

SIGN & PAPI TESTER

MALMS SIGN & PAPI TESTER

ACCURATELY MEASURE TRANSITION, INTENSITY & COLOUR

ICAO, FAA and National Standards specify for the photometric performance of airfield signage and Papi's. The MALMS Sign & Papi Tester allows an airport to measure all key characteristics for these safety critical visual aids to maintain and demonstrate compliance.

SO WHY DO AIRPORTS CHOOSE MALMS FOR PHOTOMETRIC TESTING AS PART OF THEIR PREVENTATIVE MAINTENANCE?

- MALMS Sign & Papi Tester measurements are accurate and repeatable.
- MALMS Sign & Papi Tester is the only system to measure all the key criteria specified in ICAO, FAA and National Standards to demonstrate compliance.
PAPI:-
Setting the angle, transition, colour.
SIGN:-
Colours, illuminance ratios.
- MALMS Sign & Papi Tester is quick and easy to use.
- Integrated with MALMS Cloud KPI Dashboard Reporting providing information to identify problems, develop maintenance strategies, produce work schedules and maintenance reports.
- MALMS Sign & Papi Tester is compact and lightweight yet rugged - perfect for the airfield environment.
- Designed for use for a single operator use requiring little training.
- Integrated with MALMS range of test and inspection products.
- Inbuilt diagnostics, dedicated support team plus global agency network to provide effective customer support.
- Relied upon by regulators and airport licensing authorities to provide independent evidence that an airport is operating in compliance and regulations.
- Available as a service for commissioning new papi and signage installations.
- Independent, MALMS measurement systems are free from external influence and have a long established reputation for integrity.
- Used to measure photometric compliance of elevated approach lighting - beam intensity, orientation and colour.
